Re: *Generic Docket to Establish UNE Prices for Line Sharing per FCC 99-355 and Riser Cable and Terminating Wire as Ordered in TRA Docket No. 98-00123*
Docket No. 00-00544

Dear Mr. Waddell:

During its deliberations on September 26, 2000, the Authority directed BellSouth to "change its cost studies for line sharing so that the rates reflect whether or not a CLEC provides a splitter in its own cage or in a common area of central office and whether or not the CLEC is self-provisioned within its collocation space." Enclosed are fourteen copies of BellSouth's cost studies, together with an Executive Summary, responsive to that directive. This supplemental filing also provides TELRIC cost studies for several additional UNE combinations that have been requested by CLECs throughout BellSouth's nine-state operating territory and are required by the FCC's 319 order.

A CD Rom version of the cost studies is also being provided for your convenience. Copies of the enclosed CD Rom versions of the cost studies are being provided to counsel of record for all parties.

Very truly yours,

Guy M. Hicks
